

Subject: Please Attend the Parliamentary Debate on Cat Collision Reporting – Monday 26th October

Dear [MP's Name],

I hope you are well. I am writing to you as your constituent to ask for your support in an important upcoming parliamentary debate concerning cat welfare and road safety.

The petition titled “**Legislate to require drivers to report collisions with cats**” received **189,192 signatures**, making it the largest cat-related petition ever submitted to Parliament. You can view the petition here: 🖱️ <https://petition.parliament.uk/petitions/750612>

The petition calls for a simple, compassionate change to the law: requiring drivers to stop and report collisions with cats, ensuring injured animals receive help and owners are not left in distress and uncertainty. Cats are recognised as family members by millions of households, yet current legislation does not require any action when a cat is struck by a vehicle.

The petition has now been scheduled for debate on:

 **Monday 26th October** 📍 **Westminster Hall**

As your constituent, I am respectfully asking you to **attend this debate** and represent the voices of those who believe cats deserve legal protection similar to other companion animals. Your presence and contribution would help ensure this issue receives the serious consideration it deserves.

If you are able to attend, I would be grateful if you could confirm. Thank you for taking the time to read my message, and for your continued service to our community.

Kind regards,

[Your Name]
